## **Introduction**

HISCOCK, K. M., RIVETT, M. O. & DAVISON, R. M. Sustainable groundwater development 1

## **Approaches to groundwater resources management**

ATKINSON, T. C. & DAVISON, R. M. Is the water still hot? Sustainability and the thermal springs at Bath, England 15

MCCANN, C., MANN, A. C., MCCANN, D. M. & KELLAWAY, G. A. Geophysical investigations of the thermal springs of Bath, England 41

BURGESS, D. B. Groundwater resource management in eastern England: a quest for environmentally sustainable development 53

YOUNG, M. E. Institutional development for sustainable groundwater management – an Arabian perspective 63

PRICE, M. Who needs sustainability? 75

HULME, P., FLETCHER, S. & BROWN, L. Incorporation of groundwater modelling in the sustainable management of groundwater resources 83

HUDSON, M. Groundwater sustainability and water resources planning for the East Midlands Resource Zone 91

DENNEHY, K. F., LITKE, D. W. & McMAHON, P. B. The High Plains Aquifer, USA: groundwater development and sustainability 99

ROBINS, N. S., GRIFFITHS, K. J., MERRIN, P. D. & DARLING, W. G. Sustainable groundwater resources in a hard-rock island aquifer - the Channel Island of Guernsey 121

ANDERSON, M., LOW, R. & FOOT, S. Sustainable groundwater development in arid, high Andean basins 133

BURGESS, W. G., BURREN, M., PERRIN, J. & AHMED, K. M. Constraints on sustainable development of arsenic-bearing aquifers in southern Bangladesh. Part 1: A conceptual model of arsenic in the aquifer 145

CUTHBERT, M. O., BURGESS, W. G. & CONNELL, L. Constraints on sustainable development of arsenic-bearing aquifers in southern Bangladesh. Part 2: Preliminary models of arsenic variability in pumped groundwater 165

RAJASOORIYAR, L., MATHAVAN, V., DHARMAGUNAWARDHANE, H. A. & NANDAKUMAR, V. Groundwater quality in the Valigamam region of the Jaffna Peninsula, Sri Lanka 181

## **Assessment and measurement of the impacts of groundwater abstraction on river flows**

RUSHTON, K. R. Will reductions in groundwater abstractions improve low river flows? 199

KIRK, S. & HERBERT, A. W. Assessing the impact of groundwater abstractions on river flows 211

MACHELEIDT, W., NESTLER, W. & GRISCHEK, T. Determination of hydraulic boundary conditions for the interaction between surface water and groundwater 235

<b>Risk assessment methodologies for developing and protecting groundwater resources</b>	
WORRALL, F. Direct assessment of groundwater vulnerability from borehole observations	245
CONNELL, L. D. A simple analytical solution for unsaturated solute migration under dynamic water movement conditions and root zone effects	255
DAVISON, R. M., PRABNARONG, P., WHITTAKER, J. J. & LERNER, D. N. A probabilistic management system to optimize the use of urban groundwater	265
SCHOENHEINZ, D., GRISCHEK, T., WORCH, E., BEREZNOY, V., GUTKIN, I., SHEBESTA, A., HISCOCK, K., MACHELEIDT, W. & NESTLER, W. Groundwater pollution at a pulp and paper mill at Sjasstroj near Lake Ladoga, Russia	277
ALBU, M. A., MORRIS, L. M., NASH, H. & RIVETT, M. O. Hydrocarbon contamination of groundwater, at Ploiesti, Romania	293
<b>Response of aquifers to future climate change</b>	
YOUNGER, P. L., TEUTSCH, G., CUSTODIO, E., ELLIOT, T., MANZANO, M. & SAUTER, M. Assessments of the sensitivity to climate change of flow and natural water quality in four major carbonate aquifers of Europe	303
YUSOFF, I., HISCOCK, K. M. & CONWAY, D. Simulation of the impacts of climate change on groundwater resources in eastern England	325
Index	345

It is recommended that reference to all or part of this book should be made in one of the following ways:

HISCOCK, K. M., RIVETT, M. O. & DAVISON R. M. (eds) 2002. *Sustainable Groundwater Development*. Geological Society, London, Special Publications, **193**.
