  - track sinuosity 187, 188, 190–191
- typhoons and cable breaks 43, 44, 45
- uplift rate 41
- vegetation buffers 35
- volcanic hazard map 174, 175, 179, 183
- volcanic risk perception 172–173
- volcanic rocks, Mount Natib 154–159, 162
- vulnerability model 139
- vulnerability to inundation 21–36
- vulnerability, tsunami 115, 117, 121
- Waiakea, 1960 tsunami 94
- warning and awareness 176, 182–184
- warning system, Merapi eruption 176, 183
- warning system, tsunami 92–95, 103
  - Indian Ocean 134–135, 136
  - Pacific 93–94
- warning/alert 88
- washover accumulation 27, 32–33
- washover deposits 74
- Water Vulnerability 119
- wave characteristics 84–85, 87, 88
- wave height 127, 129, 131
- wave speed, tsunami 127
- Weibull Formula 10
- Wenchuan 2008 Earthquake 148
- World Tourism Organization 132
- X-ray radiography 45, 52, 54
- Yunnan, road-related landslide 112
