Preface	vii
 Stratigraphy and sedimentary geology of siliciclastic shelves	
MICHELSEN, O. & DANIELSEN, M. Sequence and systems tract interpretation of the epicontinental Oligocene deposits in the Danish North Sea	1
KONRADI, P. B. Foraminiferal biostratigraphy of the post-mid-Miocene in the Danish Central Trough, North Sea	15
JACOBS, P. & DE BATIST, M. Sequence stratigraphy and architecture on a ramp-type continental shelf: the Belgian Palaeogene	23
MELLERE, D. & STEEL, R. J. Tidal sedimentation in Inner Hebrides half grabens, Scotland: the Mid-Jurassic Bearreraig Sandstone Formation	49
SPALLETTI, L. Estuarine and shallow-marine sedimentation in the Upper Cretaceous – Lower Tertiary west-central Patagonian Basin (Argentina)	81
 Modern siliciclastic shelves: architecture, sea level, tectonics and sediment supply	
ANDERSON, J. B., ABDULAH, K., SARZALEJO, S., SIRINGAN, F. & THOMAS, M. A. Late Quaternary sedimentation and high-resolution sequence stratigraphy of the east Texas shelf	95
ERCILLA, G. & ALONSO, B. Quaternary siliciclastic sequence stratigraphy of western Mediterranean passive and tectonically active margins: the role of global versus local controlling factors	125
HERNÁNDEZ-MOLINA, F. J., SOMOZA, L. & REY, J. Late Pleistocene–Holocene high-resolution sequence analysis on the Alboran Sea continental shelf	139
CORREGGIARI, A., FIELD, M. E. & TRINCARDI, F. Late Quaternary transgressive large dunes on the sediment-starved Adriatic shelf	155
BART, P. J. & ANDERSON, J. B. Seismic expression of depositional sequences associated with expansion and contraction of ice sheets on the northwestern Antarctic Peninsula continental shelf	171
SEJRUP, H. P., KING, E. L., AARSETH, I., HAFLIDASON, H. & ELVERHØI, A. Quaternary erosion and depositional processes: western Norwegian fjords, Norwegian Channel and North Sea Fan	187
LERICOLAIS, G., GUENOC, P., AUFFRET, J.-P., BOURILLET, J.-F. & BERNÉ, S. Detailed survey of the western end of the Hurd Deep (English Channel): new facts for a tectonic origin	203
 Nearshore and coastal environments	
DOMINGUEZ, J. M. L. The São Francisco strandplain: a paradigm for wave-dominated deltas?	217
BARRIE, J. V. & CONWAY, K. W. Evolution of a nearshore and coastal macrotidal sand transport system, Queen Charlotte Islands, Canada	233
CLEARY, W. J., RIGGS, S. R., MARCY, D. C. & SNYDER, S. W. The influence of inherited geological framework upon a hardbottom-dominated shoreface on a high-energy shelf: Onslow Bay, North Carolina, USA	249
EITNER, V., KAISER, R. & NIEMEYER, H. D. Nearshore sediment transport processes due to moderate hydrodynamic conditions	267

New techniques in continental shelf research

DE MEIJER, R. J., TÁNCZOS, I. C. & STAPEL, C. Radiometry as a technique for use in coastal research	289
MISSIAEN, T., MCGEE, T. M., PEARKS, D., OLLIER, G. & THEILEN, F. An interdisciplinary approach to the evaluation of physical parameters of shallow marine sediments	299
DAVIS, A. M. Geophysics in offshore site investigation: a review of the state of the art	323
Index	339
