TARLING, D. H. Introduction: sediments and diagenesis	1
BATT, C. M. Preliminary investigations into the acquisition of remanence in archaeological sediments	9
PISAREVSKY, S. A. Studies of post-depositional remanent magnetization and their relevance to the palaeomagnetic record	21
BORRODALE, G. J. Viscous remanent magnetization of high thermal stability in limestone	27
MAHER, B. A. & HOUNSLOW, M. W. The significance of magnetotactic bacteria for the palaeo- and rock magnetic record of Quaternary sediments and soils	43
MARCO, S., RON, H., MCWILLIAMS, M. O. & STEIN, M. The locking-in of remanence in late Pleistocene sediments of Lake Lisan (palaeo Dead Sea)	47
DINARÉS-TURELL, J. & DEKKERS, M. J. Diagenesis and remanence acquisition in the early Pliocene Trubi Marks at Punta di Maiata (southern Sicily): palaeomagnetic and rock magnetic observations	53
VIGLIOTTI, L., CAPOTONDI, L. & TORII, M. Magnetic properties of sediments deposited in suboxic–anoxic environments: relationships with biological and geochemical proxies	71
URBAT, M. DEKKERS, M. J. & VRIEND, S. P. The isolation of diagenetic groups in marine sediments using fuzzy <i>c</i> -means cluster analyses	85
WILSON, G. S. & ROBERTS, A. P. Diagenesis of magnetic mineral assemblages in multiply redeposited siliclastic marine sediments, Wanganui basin, New Zealand	95
TURNER, P., CHANDLER, P., ELLIS, D., LEVEILLE, G. P. & HEYWOOD, M. L. Remanence acquisition and magnetostratigraphy of the Leman Sandstone Formation: Jupiter Fields, southern North Sea	109
HAILWOOD, E. A., BOWEN, D., DING, F., CORBETT, P. W. M. & WHATTLER, P. Characterizing pore fabrics in sediments by anisotropy of magnetic susceptibility analyses	125
HROUDA, F. & JEZEK, J. Magnetic anisotropy indications of deformations associated with diagenesis	127
BORRADAILE, G. J., FRALICK, P. W. & LAGROIX, F. Acquisition of anhysteretic remanence and tensor subtraction from AMS isolates true palaeocurrent grain alignments	139
D'ARGENIO, B., FERRERI, V., IORIO, M., RASPINI, A. & TARLING, D. H. Diagenesis and remanence acquisition in the cretaceous carbonates of Monte Raggeto, southern Italy	147
MÁRTON, E. Diagenesis in platform carbonates: a palaeomagnetic study of a late Triassic–early Jurassic section, Tata (Hungary)	157
SHOGENOVA, A. The influence of dolomitization on the magnetic properties of early Palaeozoic carbonate rocks in Estonia	167
HAUBOLD, H. Alteration of magnetic properties of Palaeozoic platform carbonates during burial diagenesis (Lower Ordovician, Texas, USA)	181
