PREFACE	vii
MARRIOTT, S. B. & ALEXANDER, J. Introduction	1
CONTEMPORARY FLOODPLAIN PROCESS	
NICHOLAS, A. P. & MCLELLAND, S. J. Hydrodynamics of a floodplain recirculation zone investigated by field monitoring and numerical simulation	15
ALEXANDER, J., FIELDING, C. R. & POCOCK, G. D. Floodplain behaviour of the Burdekin River, tropical north Queensland, Australia	27
WALLING, D. E. Using fallout radionuclides in investigations of contemporary overbank sedimentation on the floodplains of British rivers	41
VAN DER PERK, M., BURROUGH, P. A., CULLING, A. S. C., LAPTEV, G. V., PRISTER, B., SANSONE, U. & VOITESKHOVITCH, O. V. Source and fate of Chernobyl-derived radiocaesium on floodplains in Ukraine	61
GOMEZ, B., EDEN, D. N., HICKS, D. M., TRUSTRAUM, N. A., PEACOCK, D. H. & WILMSHURST, J. Contribution of floodplain sequestration to the sediment budget of the Waipaoa River, New Zealand	69
FLOODPLAIN MANAGEMENT, RESTORATION AND ECOLOGY	
ADAMS, W. M. & PERROW, M. R. Scientific and institutional constraints on the restoration of European floodplains	89
ANDREWS, E. S. Identification of an ecologically based floodway: the case of the Cosumnes River, California	99
ASSELMAN, N. E. M. The use of floodplain sedimentation measurements to evaluate the effects of river restoration works	111
SCHOOR, M. M., WOLFERT, H. P., MAAS, G. J., MIDDELKOOP, H. LAMBEEK, J. J. P. Potential for floodplain rehabilitation based on historical maps and present-day processes along the River Rhine, The Netherlands	123
O'DONOGHUE, P. J. Somerset Levels and Moors: buying off the presumptive rights of landholders to manage the land as they see fit	139
BOAR, R. R., KIRBY, J. J. H. & LEEMING, D. J. Variations in the quality of the thatching reed <i>Phragmites australis</i> from wetlands in East Anglia, England	145
HASSAN, A., MARTIN, T. C. & MOSSELMAN, E. Island topography mapping for the Brahmaputra–Jamuna River using remote sensing and GIS	153
RECENT FLOODPLAIN EVOLUTION AND DEPOSITS	
COTTON, J. A., HERITAGE, G. L., LARGE, A. R. G. & PASSMORE, D. G. Biotic response to late Holocene floodplain evolution in the River Irthing catchment, Cumbria	163

DINNIN, M. & BRAYSHAY, B. The contribution of a multiproxy approach in reconstructing floodplain development	179
CROOKS, S. A mechanism for the formation of overconsolidated horizons within estuarine floodplain alluvium: implications for the interpretation of Holocene sea-level curves	197
PANIN, A. V., SIDORCHUK, A. YU. & CHERNOV, A. V. Historical background to floodplain morphology: examples from the East European Plain	217
ZHAO, Y., WU, C. & ZHANG, X. Palaeochannels and ground-water storage on the North China Plain	231
BOTTRILL, L. J., WALLING, D. E. & LEEKS, G. J. Geochemical characteristics of overbank deposits and their potential for determining suspended sediment provenance; an example from the River Severn, UK	241
ANCIENT FLOODPLAIN EVOLUTION AND TECHNIQUES FOR ANALYSIS	
BRAVARD, J.-P. & PEIRY, J.-L. The <i>CM</i> pattern as a tool for the classification of alluvial suites and floodplains along the river continuum	259
BRIDGE, J. S. Alluvial architecture of the Mississippi Valley: predictions using a 3D simulation model	269
WRIGHT, V. P. Assessing flood duration gradients and fine-scale environmental change on ancient floodplains	279
MCCARTHY, P. J. & PLINT, A. G. Floodplain palaeosols of the Cenomanian Dunvegan Formation, Alberta and British Columbia, Canada: micromorphology, pedogenic processes and palaeo-environmental implications	289
LIU, K. W. Nature and distribution of heavy minerals in the Natal Group, South Africa	311
Index	327

References to this volume

It is recommended that reference to all or part of this book should be made in one of the following ways:
