### Special Publication reviewing procedures

The Society makes every effort to ensure that the scientific and production quality of its books matches that of its journals. Since 1997, all book proposals have been refereed by specialist reviewers as well as by the Society's Books Editorial Committee. If the referees identify weaknesses in the proposal, these must be addressed before the proposal is accepted.

Once the book is accepted, the Society has a team of Book Editors (listed above) who ensure that the volume editors follow strict guidelines on refereeing and quality control. We insist that individual papers can only be accepted after satisfactory review by two independent referees. The questions on the review forms are similar to those for *Journal of the Geological Society*. The referees' forms and comments must be available to the Society's Book Editors on request.

Although many of the books result from meetings, the editors are expected to commission papers that were not presented at the meeting to ensure that the book provides a balanced coverage of the subject. Being accepted for presentation at the meeting does not guarantee inclusion in the book.

Geological Society Special Publications are included in the ISI Science Citation Index, but they do not have an impact factor, the latter being applicable only to journals.

More information about submitting a proposal and producing a Special Publication can be found on the Society's web site: [www.geolsoc.org.uk](http://www.geolsoc.org.uk).

**It is recommended that reference to all or part of this book should be made in one of the following ways:**

DORÉ, A. G., CARTWRIGHT, J. A., STOKER, M. S., TURNER, J. P. & WHITE, N. (eds) 2002. *Exhumation of the North Atlantic Margin: Timing, Mechanisms and Implications for Petroleum Exploration*. Geological Society, London, Special Publications, **196**.

BLUNDELL, D. J. 2002. Cenozoic inversion and uplift of southern Britain. In: DORÉ, A. G., CARTWRIGHT, J. A., STOKER, M. S., TURNER, J. P. & WHITE, N. (eds) *Exhumation of the North Atlantic Margin: Timing, Mechanisms and Implications for Petroleum Exploration*. Geological Society, London, Special Publications, **196**, 85–101.

GEOLOGICAL SOCIETY SPECIAL PUBLICATION No. 196

# Exhumation of the North Atlantic Margin: Timing, Mechanisms and Implications for Petroleum Exploration

EDITED BY

A. G. DORÉ  
Statoil, UK

J. A. CARTWRIGHT  
Cardiff University, UK

M. S. STOKER

London

# THE GEOLOGICAL SOCIETY

The Geological Society of London (GSL) was founded in 1807. It is the oldest national geological society in the world and the largest in Europe. It was incorporated under Royal Charter in 1825 and is Registered Charity 210161.

The Society is the UK national learned and professional society for geology with a worldwide Fellowship (FGS) of 9000. The Society has the power to confer Chartered status on suitably qualified Fellows, and about 2000 of the Fellowship carry the title (CGeol). Chartered Geologists may also obtain the equivalent European title, European Geologist (EurGeol). One fifth of the Society's fellowship resides outside the UK. To find out more about the Society, log on to [www.geolsoc.org.uk](http://www.geolsoc.org.uk).

**The Geological Society Publishing House** (Bath, UK) produces the Society's international journals and books, and acts as European distributor for selected publications of the American Association of Petroleum Geologists (AAPG), the American Geological Institute (AGI), the Indonesian Petroleum Association (IPA), the Geological Society of America (GSA), the Society for Sedimentary Geology (SEPM) and the Geologists' Association (GA). Joint marketing agreements ensure that GSL Fellows may purchase these societies' publications at a discount. The Society's online bookshop (accessible from [www.geolsoc.org.uk](http://www.geolsoc.org.uk)) offers secure book purchasing with your credit or debit card.

To find out about joining the Society and benefiting from substantial discounts on publications of GSL and other societies worldwide, consult [www.geolsoc.org.uk](http://www.geolsoc.org.uk), or contact the Fellowship Department at: The Geological Society, Burlington House, Piccadilly, London W1J 0BG: Tel. +44 (0)20 7434 9944; Fax +44 (0)20 7439 8975; Email: [enquiries@geolsoc.org.uk](mailto:enquiries@geolsoc.org.uk).

For information about the Society's meetings, consult *Events* on [www.geolsoc.org.uk](http://www.geolsoc.org.uk). To find out more about the Society's Corporate Affiliates Scheme, write to [enquiries@geolsoc.org.uk](mailto:enquiries@geolsoc.org.uk).

# Contents

DORÉ, A. G., CARTWRIGHT, J. A., STOKER, M. S., TURNER, J. P. & WHITE, N. J. Exhumation of the North Atlantic margin: introduction and background	1
--	---

## Mechanisms

JONES, S. M., WHITE, N., CLARKE, B. J., ROWLEY, E. & GALLAGHER, K. Present and past influence of the Iceland Plume on sedimentation	13
ROHRMAN, M., VAN DER BEEK, P. A., VAN DER HILST, R. D. & REEMST, P. Timing and mechanisms of North Atlantic Cenozoic uplift: evidence for mantle upwelling	27
NIELSEN, S. B., PAULSEN, G. E., HANSEN, D. L., GEMMER, L., CLAUSEN, O. R., JACOBSEN, B. H., BALLING, N., HUUSE, M. & GALLAGHER, K. Paleocene initiation of Cenozoic uplift in Norway	45
GRAVERSEN, O. A structural transect between the central North Sea Dome and the South Swedish Dome: Middle Jurassic–Quaternary uplift–subsidence reversal and exhumation across the eastern North Sea Basin	67
BLUNDELL, D. J. Cenozoic inversion and uplift of southern Britain	85

## Scandinavia, Greenland and adjacent margin

LIDMAR-BERGSTRÖM, K. & NÄSLUND, J. O. Landforms and uplift in Scandinavia	103
HENDRIKS, B. W. H. & ANDRIESEN, P. A. M. Pattern and timing of the post-Caledonian denudation of northern Scandinavia constrained by apatite fission-track thermochronology	117
EVANS, D., MCGIVERON, S., HARRISON, Z., BRYN, P. & BERG, K. Along-slope variation in the late Neogene evolution of the mid-Norwegian margin in response to uplift and tectonism	139
STROEVEN, A. P., FABEL, D., HARBOR, J., HÄTTESTRAND, C. & KLEMAN, J. Reconstructing the erosion history of glaciated passive margins: applications of <i>in situ</i> produced cosmogenic nuclide techniques	153
CEDERBOM, C. The thermotectonic development of southern Sweden during Mesozoic and Cenozoic time	169
JAPSEN, P., BIDSTRUP, T. & LIDMAR-BERGSTRÖM, K. Neogene uplift and erosion of southern Scandinavia induced by the rise of the South Swedish Dome	183
HUUSE, M. Cenozoic uplift and denudation of southern Norway: insights from the North Sea Basin	209
FALEIDE, J. I., KYRKJEBØ, R., KJENNERUD, T., GABRIELSEN, R. H., JORDT, H., FANAVOLL, S. & BJERKE, M. D. Tectonic impact on sedimentary processes during Cenozoic evolution of the northern North Sea and surrounding areas	235

## UK, Ireland and adjacent margin

HALL, A. & BISHOP, P. Scotland's denudational history: an integrated view of erosion and sedimentation at an uplifted passive margin	271
ANDERSEN, M. S., SØRENSEN, A. B., BOLDREEL, L. O. & NIELSEN, T. Cenozoic evolution of the Faroe Platform, comparing denudation and deposition	291
STOKER, M. S. Late Neogene development of the UK Atlantic margin	313
GREEN, P. F., DUDDY, I. R. & HEGARTY, K. A. Quantifying exhumation from apatite fission-track analysis and vitrinite reflectance data: precision, accuracy and latest results from the Atlantic margin of NW Europe	331

WARE, P. D. & TURNER, J. P. Sonic velocity analysis of the Tertiary denudation of the Irish Sea basin	355
ALLEN, P. A., BENNETT, S. D., CUNNINGHAM, M. J. M., CARTER, A., GALLAGHER, K., LAZZARETTI, E., GALEWSKY, J., DENSMORE, A. L., PHILLIPS, W. E. A., NAYLOR, D. & HACH, C. S. The post-Variscan thermal and denudational history of Ireland	371
<b>Implications for petroleum exploration</b>	
DORÉ, A. G., CORCORAN, D. V. & SCOTCHMAN, I. C. Prediction of the hydrocarbon system in exhumed basins, and application to the NW European margin	401
PRICE, L. C. Geological and geochemical consequences of basin exhumation, and commercial implications	431
PARNELL, J. Diagenesis and fluid flow in response to uplift and exhumation	433
CRAMER, B., SCHLÖMER, S. & POELCHAU, H. S. Uplift-related hydrocarbon accumulations: the release of natural gas from groundwater	447
CORCORAN, D. V. & DORÉ, A. G. Depressurization of hydrocarbon-bearing reservoirs in exhumed basin settings: evidence from Atlantic margin and borderland basins	457
Index	485
