Special Publication reviewing procedures

The Society makes every effort to ensure that the scientific and production quality of its books matches that of its journals. Since 1997, all book proposals have been refereed by specialist reviewers as well as by the Society's Books Editorial Committee. If the referees identify weaknesses in the proposal, these must be addressed before the proposal is accepted.

Once the book is accepted, the Society has a team of Book Editors (listed above) who ensure that the volume editors follow strict guidelines on refereeing and quality control. We insist that individual papers can only be accepted after satisfactory review by two independent referees. The questions on the review forms are similar to those for *Journal of the Geological Society*. The referees' forms and comments must be available to the Society's Book Editors on request.

Although many of the books result from meetings, the editors are expected to commission papers that were not presented at the meeting to ensure that the book provides a balanced coverage of the subject. Being accepted for presentation at the meeting does not guarantee inclusion in the book.

Geological Society Special Publications are included in the ISI Index of Scientific Book Contents, but they do not have an impact factor, the latter being applicable only to journals.

More information about submitting a proposal and producing a Special Publication can be found on the Society's web site: www.geolsoc.org.uk.

It is recommended that reference to all or part of this book should be made in one of the following ways:

BUFFETAUT, E. & MAZIN, J-M. (eds) 2003. *Evolution and Palaeobiology of Pterosaurs*. Geological Society, London, Special Publications, **217**.

FREY, E., MARTILL, D.M. & BUCHY, M-C. 2003. A new crested ornithocheirid from the Lower Cretaceous of northeastern Brazil and the unusual death of an unusual pterosaur. *In*: BUFFETAUT, E. & MAZIN, J-M. (eds) *Evolution and Palaeobiology of Pterosaurs*. Geological Society, London, Special Publications, **217**, 55–63.

GEOLOGICAL SOCIETY SPECIAL PUBLICATION NO. 217

Evolution and Palaeobiology of Pterosaurs

EDITED BY

E. BUFFETAUT

Centre National de la Recherche Scientifique, Paris, France

J-M. MAZIN

THE GEOLOGICAL SOCIETY

The Geological Society of London (GSL) was founded in 1807. It is the oldest national geological society in the world and the largest in Europe. It was incorporated under Royal Charter in 1825 and is Registered Charity 210161.

The Society is the UK national learned and professional society for geology with a worldwide Fellowship (FGS) of 9000. The Society has the power to confer Chartered status on suitably qualified Fellows, and about 2000 of the Fellowship carry the title (CGeol). Chartered Geologists may also obtain the equivalent European title, European Geologist (EurGeol). One fifth of the Society's fellowship resides outside the UK. To find out more about the Society, log on to www.geolsoc.org.uk.

The Geological Society Publishing House (Bath, UK) produces the Society's international journals and books, and acts as European distributor for selected publications of the American Association of Petroleum Geologists (AAPG), the American Geological Institute (AGI), the Indonesian Petroleum Association (IPA), the Geological Society of America (GSA), the Society for Sedimentary Geology (SEPM) and the Geologists' Association (GA). Joint marketing agreements ensure that GSL Fellows may purchase these societies' publications at a discount. The Society's online bookshop ([accessible from www.geolsoc.org.uk](http://www.geolsoc.org.uk)) offers secure book purchasing with your credit or debit card.

To find out about joining the Society and benefiting from substantial discounts on publications of GSL and other societies worldwide, consult www.geolsoc.org.uk, or contact the Fellowship Department at: The Geological Society, Burlington House, Piccadilly, London W1J 0BG; Tel. +44 (0)20 7434 9944; Fax +44 (0)20 7439 8975; E-mail: enquiries@geolsoc.org.uk.

For information about the Society's meetings, consult *Events* on www.geolsoc.org.uk. To find out more about the Society's Corporate Affiliates Scheme, write to enquiries@geolsoc.org.uk.

Contents

BUFFETAUT, E. & MAZIN, J-M. Evolution and palaeobiology of pterosaurs	1
WELLNHOFER, P. A Late Triassic pterosaur from the Northern Calcareous Alps (Tyrol, Austria)	5
DALLA VECCHIA, F. M. New morphological observations on Triassic pterosaurs	23
CARPENTER, K., UNWIN, D., CLOWARD, K., MILES, C. & MILES, C. A new scaphognathine pterosaur from the Upper Jurassic Morrison Formation of Wyoming, USA	45
FREY, E., MARTILL, D. M. & BUCHY, M-C. A new crested ornithocheirid from the Lower Cretaceous of northeastern Brazil and the unusual death of an unusual pterosaur	55
FREY, E., MARTILL, D. M. & BUCHY, M-C. A new species of tapejarid pterosaur with soft-tissue head crest	65
KELLNER, A. W. A. & MOODY, J. M. Pterosaur (Pteranodontoidea, Pterodactyloidea) scapulocoracoid from the Early Cretaceous of Venezuela	73
PEREDA-SUBERBIOLA, X., BARDET, N., JOUVE, S., IAROCHÈNE, M., BOUYA, B. & AMAGHZAZ, M. A new azhdarchid pterosaur from the Late Cretaceous phosphates of Morocco	79
BUFFETAUT, E., GRIGORESCU, D. & CSIKI, Z. Giant azhdarchid pterosaurs from the terminal Cretaceous of Transylvania (western Romania)	91
KELLNER, A. W. A. Pterosaur phylogeny and comments on the evolutionary history of the group	105
UNWIN, D. M. On the phylogeny and evolutionary history of pterosaurs	139
BENNETT, S. C. Morphological evolution of the pectoral girdle of pterosaurs: myology and function	191
BONDE, N. & CHRISTIANSEN, P. The detailed anatomy of <i>Rhamphorhynchus</i> : axial pneumaticity and its implications	217
FREY, E., TISCHLINGER, H., BUCHY, M-C. & MARTILL, D. M. New specimens of Pterosauria (Reptilia) with soft parts with implications for pterosaurian anatomy and locomotion	233
FREY, E., BUCHY, M-C. & MARTILL, D. M. Middle- and bottom-decker Cretaceous pterosaurs: unique designs in active flying vertebrates	267
RODRIGUEZ-DE LA ROSA, R. A. Pterosaur tracks from the latest Campanian Cerro del Pueblo Formation of southeastern Coahuila, Mexico	275
MAZIN, J-M., BILLON-BRUYAT, J-P., HANTZPERGUE, P. & LAFAURIE, G. Ichnological evidence for quadrupedal locomotion in pterodactyloid pterosaurs: trackways from the Late Jurassic of Crayssac (southwestern France)	283
LOCKLEY, M. G. & WRIGHT, J. L. Pterosaur swim tracks and other ichnological evidence of behaviour and ecology	297
BILLON-BRUYAT, J-P. & MAZIN, J-M. The systematic problem of tetrapod ichnotaxa: the case study of <i>Pteraichnus</i> Stokes, 1957 (Pterosauria, Pterodactyloidea)	315
STEEL, L. The John Quekett sections and the earliest pterosaur histological studies	325
SAYÃO, J. M. Histovariability in bones of two pterodactyloid pterosaurs from the Santana Formation, Araripe Basin, Brazil: preliminary results	335
Index	343
