Special Publication reviewing procedures

The Society makes every effort to ensure that the scientific and production quality of its books matches that of its journals. Since 1997, all book proposals have been refereed by specialist reviewers as well as by the Society's Books Editorial Committee. If the referees identify weaknesses in the proposal, these must be addressed before the proposal is accepted.

Once the book is accepted, the Society has a team of Book Editors (listed above) who ensure that the volume editors follow strict guidelines on refereeing and quality control. We insist that individual papers can only be accepted after satisfactory review by two independent referees. The questions on the review forms are similar to those for *Journal of the Geological Society*. The referees' forms and comments must be available to the Society's Book Editors on request.

Although many of the books result from meetings, the editors are expected to commission papers that were not presented at the meeting to ensure that the book provides a balanced coverage of the subject. Being accepted for presentation at the meeting does not guarantee inclusion in the book.

Geological Society Special Publications are included in the ISI Index of Scientific Book Contents, but they do not have an impact factor, the latter being applicable only to journals.

More information about submitting a proposal and producing a Special Publication can be found on the Society's web site: www.geolsoc.org.uk.

It is recommended that reference to all or part of this book should be made in one of the following ways:

MATHER, J. D. (ed.) 2004. *200 Years of British Hydrogeology*. Geological Society, London, Special Publications, **225**.

ROSE, E.P.F., MATHER, J.D. & PEREZ, M. 2004. British attempts to develop groundwater and water supply on Gibraltar 1800-1985. *In*: MATHER, J. D. (ed.) 2004. *200 Years of British Hydrogeology*. Geological Society, London, Special Publications, **225**, 239-262.

THE GEOLOGICAL SOCIETY

The Geological Society of London (GSL) was founded in 1807. It is the oldest national geological society in the world and the largest in Europe. It was incorporated under Royal Charter in 1825 and is Registered Charity 210161.

The Society is the UK national learned and professional society for geology with a worldwide Fellowship (FGS) of 9000. The Society has the power to confer Chartered status on suitably qualified Fellows, and about 2000 of the Fellowship carry the title (CGeol). Chartered Geologists may also obtain the equivalent European title, European Geologist (EurGeol). One fifth of the Society's fellowship resides outside the UK. To find out more about the Society, log on to www.geolsoc.org.uk.

The Geological Society Publishing House (Bath, UK) produces the Society's international journals and books, and acts as European distributor for selected publications of the American Association of Petroleum Geologists (AAPG), the American Geological Institute (AGI), the Indonesian Petroleum Association (IPA), the Geological Society of America (GSA), the Society for Sedimentary Geology (SEPM) and the Geologists' Association (GA). Joint marketing agreements ensure that GSL Fellows may purchase these societies' publications at a discount. The Society's online bookshop (accessible from www.geolsoc.org.uk) offers secure book purchasing with your credit or debit card.

To find out about joining the Society and benefiting from substantial discounts on publications of GSL and other societies worldwide, consult www.geolsoc.org.uk, or contact the Fellowship Department at: The Geological Society, Burlington House, Piccadilly, London W1J 0BG; Tel. +44 (0)20 7434 9944; Fax +44 (0)20 7439 8975; E-mail: enquiries@geolsoc.org.uk.

For information about the Society's meetings, consult *Events* on www.geolsoc.org.uk. To find out more about the Society's Corporate Affiliates Scheme, write to enquiries@geolsoc.org.uk.

Contents

MATHER, J. D. 200 Years of British hydrogeology – an introduction and overview	1
TORRENS, H. S. The water-related work of William Smith (1769–1839)	15
PRICE, M. Dr John Snow and an early investigation of groundwater contamination	31
GEORGE, W. H. William Whitaker (1836–1925) – geologist, bibliographer and a pioneer of British hydrogeology	51
MATHER, J. D., TORRENS, H.S. & LUCAS, K. J. Joseph Lucas (1846–1926) – Victorian polymath and a key figure in the development of British hydrogeology	67
TELLAM, J. H. 19th century studies of the hydrogeology of the Permo-Triassic Sandstones of the northern Cheshire Basin, England	89
PREENE, M. Robert Stephenson (1803–1859) – the first groundwater engineer	107
YOUNGER, P. L. ‘Making water’: the hydrogeological adventures of Britain’s early mining engineers	121
ROSE, E. P. F. The contribution of geologists to the development of emergency groundwater supplies by the British army	159
ROBINS, N. S., BENNETT, J. R. P. & CULLEN, K. T. Groundwater versus surface water in Scotland and Ireland – the formative years	183
EDMUNDS, W. M. Bath thermal waters: 400 years in the history of geochemistry and hydrogeology	193
FULLER, J. G. C. M. Chalybeate springs at Tunbridge Wells: site of a 17th-century New Town	201
SPENCE, I. M. & ROBINS, N. S. The Scottish hydropathic establishments and their use of groundwater	212
LLOYD, J. W. British hydrogeologists in North Africa and the Middle East – an historical perspective	219
HAZELL, R. British hydrogeologists in West Africa – an historical evaluation of their role and contribution	229
ROSE, E. P. F., MATHER, J. D. & PEREZ, M. British attempts to develop groundwater and water supply on Gibraltar 1800–1985	239
BARKER, R. D. The first use of geophysics in borehole siting in hardrock areas of Africa	263
DOWNING, R. A. The development of groundwater in the UK between 1935 and 1965 – the role of the Geological Survey of Great Britain	271
DOWNING, R. A. & GRAY, D. A. Jack Ineson (1917–1970). The instigator of quantitative hydrogeology in Britain	283
GRAY, D. A. & MATHER, J. D. Stevenson Buchan (1907–1996): field geologist, hydrogeologist and administrator	287
GRAY, D. A. Groundwater studies in the Institute of Geological Sciences between 1965 and 1977	295
DOWNING, R. A., EASTWOOD, W. & RUSHTON, K. R. Norman Savage Boulton (1899–1984): civil engineer and groundwater hydrologist	319
DOWNING, R. A. Groundwater in a national water strategy, 1964–79	323
HEADWORTH, H. G. Recollections of a golden age: the groundwater schemes of Southern Water 1970 to 1990	339
BRASSINGTON, F. C. Developments in UK hydrogeology since 1974	363
Index	387
