### **Geological Society books refereeing procedures**

The Society makes every effort to ensure that the scientific and production quality of its books matches that of its journals. Since 1997, all book proposals have been refereed by specialist reviewers as well as by the Society's Books Editorial Committee. If the referees identify weaknesses in the proposal, these must be addressed before the proposal is accepted.

Once the book is accepted, the Society Book Editors ensure that the volume editors follow strict guidelines on refereeing and quality control. We insist that individual papers can only be accepted after satisfactory review by two independent referees. The questions on the review forms are similar to those for *Journal of the Geological Society*. The referees' forms and comments must be available to the Society's Book Editors on request.

Although many of the books result from meetings, the editors are expected to commission papers that were not presented at the meeting to ensure that the book provides a balanced coverage of the subject. Being accepted for presentation at the meeting does not guarantee inclusion in the book.

More information about submitting a proposal and producing a book for the Society can be found on its web site: [www.geolsoc.org.uk](http://www.geolsoc.org.uk).

It is recommended that reference to all or part of this book should be made in one of the following ways:

## THE GEOLOGICAL SOCIETY

The Geological Society of London (GSL) was founded in 1807. It is the oldest national geological society in the world and the largest in Europe. It was incorporated under Royal Charter in 1825 and is Registered Charity 210161.

The Society is the UK national learned and professional society for geology with a worldwide Fellowship (FGS) of over 9000. The Society has the power to confer Chartered status on suitably qualified Fellows, and about 2000 of the Fellowship carry the title (CGeol). Chartered Geologists may also obtain the equivalent European title, European Geologist (EurGeol). One fifth of the Society's fellowship resides outside the UK. To find out more about the Society, log on to [www.geolsoc.org.uk](http://www.geolsoc.org.uk).

**The Geological Society Publishing House** (Bath, UK) produces the Society's international journals and books, and acts as European distributor for selected publications of the American Association of Petroleum Geologists (AAPG), the Indonesian Petroleum Association (IPA), the Geological Society of America (GSA), the Society for Sedimentary Geology (SEPM) and the Geologists' Association (GA). Joint marketing agreements ensure that GSL Fellows may purchase these societies' publications at a discount. The Society's online bookshop (accessible from [www.geolsoc.org.uk](http://www.geolsoc.org.uk)) offers secure book purchasing with your credit or debit card.

To find out about joining the Society and benefiting from substantial discounts on publications of GSL and other societies worldwide, consult [www.geolsoc.org.uk](http://www.geolsoc.org.uk), or contact the Fellowship Department at: The Geological Society, Burlington House, Piccadilly, London W1J 0BG: Tel. +44 (0)20 7434 9944; Fax +44 (0)20 7439 8975; E-mail: [enquiries@geolsoc.org.uk](mailto:enquiries@geolsoc.org.uk).

For information about the Society's meetings, consult *Events* on [www.geolsoc.org.uk](http://www.geolsoc.org.uk). To find out more about the Society's Corporate Affiliates Scheme, write to [enquiries@geolsoc.org.uk](mailto:enquiries@geolsoc.org.uk).

## Preface

This volume was inspired by the Structurally Complex Reservoirs conference held in Burlington House, London between 28th February and 2nd March 2006. We are very grateful to ITF (Industry Technology Facilitator, Aberdeen) and to Duncan Anderson, in particular, for their tremendous efforts in helping us to arrange sponsorship and conference materials for the meeting. The event was sponsored by BG Group, BP, Chevron, ConocoPhillips, Hess, Maersk Oil, Shell, Statoil, Total, and Badleys, Beicip, EarthDecision, RDR, Roxar and Schlumberger: part of their sponsorship also helped to fund the colour production of this volume.

We owe a debt of gratitude to all of the authors who wrote and submitted papers to what we think is a unique collection of benchmark papers on the topic of structurally complex reservoirs. We thank them for investing their time and science in this enterprise, and for producing their manuscripts by the deadlines required to guarantee publication in 2007. We also owe a similar debt to all of the referees who devoted their time, effort and expertise to reviewing papers included in this volume:

Rolf Ackermann, Mohammed Ameen, Andy Aplin, Wayne Bailey, Tony Batchelor, Mark

Bentley, Stephan Bergbauer, Peter Boulton, Peter Bretan, Paul Brockbank, Rob Butler, John Cain, Ben Clennell, Conrad Childs, Gary Couples, Tim Couzens, Steve Dee, David Ferrill, Quentin Fisher, Haakon Fossen, Brett Freeman, Peter Frykman, Alan Gibbs, Richard Gibson, Mark Hempton, Richard Hillis, Bob Holdsworth, Richard Jolly, Greg Jones, Richard Jones, Tor Anders Knai, Hemin Koyi, Bob Krantz, Tron Kristiansen, Gavin Lewis, Richard Lisle, Jingsheng Ma, Laurent Maerten, Gerhard Mäkel, Tom Manzocchi, Eddie McAllister, Alan Morris, Steve Naruk, Tim Needham, Jon Olson, Signe Ottesen, David Peacock, Paul Pijush, Peter Rowbotham, Iain Sinclair, Takeo Tanuguchi, Simon Tod, Chris Townsend, Jonathan Turner, Bruno Vendeville, Alastair Welbon, Scott Wilkins, Martha Withjack, Graham Yielding, Bjornar Ystad, Mark Zoback, and other referees who preferred to remain anonymous.

We hope readers will find this book both interesting and informative.

Steve Jolley,  
Dave Barr,  
John Walsh,  
Rob Knipe,  
18 June 2007.
