 surge deposits, AD79 167

 talus 164, 165, 191, 197, 198
 talus cone 145, 148
 tectonic activity 122
 tephra and slope instability 64
 tephra code, Somma–Vesuvius 37
 tephra layers, dating 48–51
 tephra lithology 51
 tephra tS2 Pompeii 40–45, 46, 47, 57, 61
 seismic reflector 51, 52–60
 slump deformation 63
 thickness 54
 tephra, Vesuvius 39, 45
 Tigullio coast, geology 144, 145, 150
 topples 14, 15
 in coastal landslides 124, 126, 129, 130, 136, 139
 Ischia 83, 92
 tourism 153
 and risk 121, 127, 128, 139
 transgressive systems tract 53
 translator wave flood 5, 7
 triggering factors 2, 116
 flank collapse 105
 landslides 121, 130, 134, 136, 139, 151, 157
 tsunami 2, 16–17, 115, 139
 Bay of Naples 106, 113, 115–116
 hazard ranking 200
 and landslide 100–101, 102
 turbidites 20, 58–60, 61, 62, 64
 turbidity currents 1, 8, 10, 19

 unconformity 108, 112, 113, 114
 Late Pleistocene 36, 38, 39, 52
 UNESCO World Heritage Site 173
 uplift rate 78, 100
 urban development and flood-prone streams 4, 6
 urban settlements and landslides 127, 128, 129, 131, 134, 139
 urbanisation of coast 1, 190

 Vajont reservoir 1963 catastrophe 16–17
 vegetation and hazard assessment 197
 velocity of debris avalanche 106
 Vesuvius 106, 107 *see also*
 Somma–Vesuvius
 AD79 eruption 155
 and delta development 62, 64
 and flooding 5
 history of eruption 36, 37
 Durece deposits 157–163
 thickness 156, 157, 159
 Via Aurelia *see* Aurelia
 Vico Equense, Durece deposits 159
 Vico Equense, shore platform 192
 Vietri sul Mare, flood events 183
 1954 flooding event 25
 volcanic activity and hazard 155
 volcanic coast 15, 122
 volcanic collapse 16, 18, 19, 23, 105
 see also Somma–Vesuvius and Ischia
 volcanic complexes, Tyrrhenian Sea 74
 volcanic mantling deposits 36
 volcanic ridge, Ischia 77–78
 volcanicity, hazard ranking 200
 volcanoclastic deposits 36, 64, 66
 Avellino eruption 108, 109–112, 114
 Durece deposits 157–169
 volcanism and slope failure 16–17
 volcanism, Ischia 74–76
 volcanoes and instability 18–23
 volcanoes, active 34, 73
 Volla plain, volcanoclastics 109, 111

 wave action and hazard ranking 200
 wave height 144, 190
 wire mesh nets 138
