 Seychelles **353**
- Tristan mantle plume **319**, 320
 Tromsø Basin 65, 72, 346–347
- turbidites
 French Guiana margin 127, 135, 136
 Honduran Borderlands 285
- Turonian-Santonian Erosional Limit 222, 223
- unconformities
 East Andaman Basin 50
 Guyana-Suriname Basin 204
 Nicaraguan Rise 285, 291
- underplating, magmatic 5, 41, 52
- Ungava Fracture Zone 67
- unloading 5–6, 7
- uplift
 at transform margins 89, 361–362
 flexural-isostatic 5, 7
 post-breakup 5, 166
 thermal expansion 7–8
 transpression 8
- Urals 81, 348
- Ust-Lena Rift 78
- Valle de Angeles Formation 276, 277
- Verkhoyansk Fold Belt 65, 75, 76, 348
- vertical movement, strike-slip regime 12
- Vestbakken Volcanic Province 71, 72, 74, 88, 345, 347, 349
- viscosity, lower crust 367–373
- Vishnu Fracture Zone 307, 313, 314
- volcanic arc, Andaman Islands 53
- volcanism
 Arctic Ocean 70, 71, 72, 75, 88
 Elan Bank 107, 117–118
 Vøring Basin 72, 340, 345, 346–347
- Wallaby Plateau 324
- Wallaby-Zenith Transform 5, 8
- WAT margin *see* West African Transform margin
- Weddell Sea Formation 315
- ‘Wegener Fault’ 87, 88
- West African Transform margin 220, 221, 222, 223, 225
 oil family assignments 227–231
 transpressional structures 237
- West Andaman Fault 41, 57–58
- West Canoa Field 246
- West Gondwana 301, 311, 312, 314, 315, 316, 317
- West Indian margin, Seychelles separation 329–334
- West Jan Mayen Fracture Zone 67, 338–339, 340
- West Mergui Fault 45
- West Spitsbergen Orogeny 87
- West Spitsbergen fold and thrust belt 71, 72, 74, 345, 346, 349
- Western pull-apart terrain 250, 263, 266, 269
- windshield wiper model, Canada Basin 69, 73, 345
- Woodlark Basin, transform development 8
- Wrangel Island 65, 78, 79–81, 84, 86, 348
- Wrangel-Herald Arch 67, 78, 81, 86
- wrench faults 328, 329, 349, 350
- Yadana gas field 43
- Yenisey-Khatanga Trough 65, 77, 81, 87, 90
- Yermak Plateau 65, 69–70, 72, 74, 76, 340, 346–347
- Yojoa Group 276, 277
- Zenith Plateau 324
