Introduction

MAYER, W. Introduction: enquiries into the history of geology 1

Tracing the history of INHIGEO (International Commission on the History of Geological Sciences)

MALAKHOVA, I. The founding of INHIGEO: documents and letters, with comments 9

BORK, K. B. & COOPER, B. J. INHIGEO in recent times 29

JOHNSTON, M. R. & TAYLOR, K. L. Historians of geology in the field: a half-century of INHIGEO excursions 41

RUDWICK, M. Insiders and outsiders: INHIGEO seen from the sidelines 55

Why study the history of geology

COOPER, B. J. Changing reflections on the history of geology 63

On theories, ideas and concepts in geology

KÖLBL-EBERT, M. Thinking about the geosciences in their religious/philosophical context 69

RACKI, G. Methodological uniformitarianism of Hugo Kollątaj: an unknown Polish precursor of the Lyellian geological paradigm 81

CWOJDZINSKI, S. History of a discussion: selected aspects of the Earth expansion v. plate tectonics theories 93

LETSCH, D. Swiss contributions to mid-nineteenth century tectonic research: a step backwards or the prologue to the nappe tectonics revolution? 105

TAYLOR, K. L. Before volcanoes became ordinary 117

ORME, A. R. Dynamic geomorphology: historical convergence towards modern practice 141

LUCAS, S. G. & ALVARADO, G. E. Vertebrate palaeontology in Central America: a narrative and analytical history 155

NEWCOMB, S. Progression of instrument use and practice in mineralogy and petrology, 1750–1950 171
### Teaching the history of geoscience

**FIGUEIRÔA, S. F. de M.** Innovation and critical thinking: contributions of the history and philosophy of geological sciences to teaching, especially undergraduate teaching

**CLARY, R. M.** Controversies in the history of geology and their educational importance for facilitating understanding of the nature of science

**ZHOU, Y.** Review of the history of higher education in geology during the past 100 years in China

### On the contribution of women to the geosciences

**KÖBL-EBERT, M. & TURNER, S.** Towards a history of women in the geosciences

### Biographical studies

**BESSUDNOVA, Z. A.** The first Russian monograph on the History of Geology by Grigory E. Shchurovsky, professor of Moscow University: on the 150th anniversary of the publication

**AALTO, K. R.** Clarence Dutton’s geology

**RICCARDI, A. C.** Life and geological studies of Joaquín Frenguelli

**SATÔ, T., YAMADA, T. & YAJIMA, M.** Teiichi Kobayashi: his life and works, with an emphasis on his contribution to the history of the geosciences in Japan

### Government agencies, institutions and societies

**KLEMUN, M.** Spaces and places: an historical overview of the development of geology in Austria (Habsburg Monarchy) in the eighteenth and nineteenth centuries

**MÔTA, T. S. & CARNEIRO, A.** The ups and downs of geology in Portugal: the Geological Survey, a historical perspective

**AZUELA, L. F.** Towards a nationwide geological survey in nineteenth century Mexico

**MORELOS-RODRÍGUEZ, L.** Brief history of geological and mining exploration in nineteenth century Mexico

**RICCARDI, A. C.** Geographical and geological explorations of the La Plata Museum 1884–1905

**TAQUET, P.** A look into the history of geology in France

**ZHANG, J.** Social functions of historical studies of Chinese geology

### Regional geological studies

**SUNDQUIST, B.** Early geological studies and mapping in Sweden

**DIEMER, J.** Murchison in Sweden: consolidating Lower Silurian stratigraphy in the summer of 1844
