Foreword: Geological Society of London	viii
SCOURSE, E. M., CHAPMAN, N. A., TAPPIN, D. R. & WALLIS, S. R. Tsunamis: geology, hazards and risks – introduction	1
Tsunami hazards globally	
TAPPIN, D. R. The importance of geologists and geology in tsunami science and tsunami hazard	5
WALLIS, S. R., FUJIWARA, O. & GOTO, K. Geological studies in tsunami research since the 2011 Tohoku earthquake	39
GODA, K., YASUDA, T., MAI, P. M., MARUYAMA, T. & MORI, N. Tsunami simulations of mega-thrust earthquakes in the Nankai–Tonankai Trough (Japan) based on stochastic rupture scenarios	55
IKEHARA, K., USAMI, K., KANAMATSU, T., ARAI, K., YAMAGUCHI, A. & FUKUCHI, R. Spatial variability in sediment lithology and sedimentary processes along the Japan Trench: use of deep-sea turbidite records to reconstruct past large earthquakes	75
LINDHOLM, C., STRAUCH, W. & FERNÁNDEZ, M. Tsunami hazard in Central America: history and future	91
BOULTON, S. J. & WHITWORTH, M. R. Z. Block and boulder accumulations on the southern coast of Crete (Greece): evidence for the 365 CE tsunami in the Eastern Mediterranean	105
MOTTERSHEAD, D. N., BRAY, M. J. & SOAR, P. J. Tsunami landfalls in the Maltese archipelago: reconciling the historical record with geomorphological evidence	127
LONG, D. Cataloguing tsunami events in the UK	143
COSTA, P. J. M., GELFENBAUM, G., DAWSON, S., LA SELLE, S., MILNE, F., CASCALHO, J., LIRA, C. P., ANDRADE, C., FREITAS, M. C. & JAFFE, B. The application of microtextural and heavy mineral analysis to discriminate between storm and tsunami deposits	167
Risk modelling	
WOO, G. Risk-informed tsunami warnings	191
POWER, W., WANG, X., WALLACE, L., CLARK, K. & MUELLER, C. The New Zealand Probabilistic Tsunami Hazard Model: development and implementation of a methodology for estimating tsunami hazard nationwide	199
DAVIES, G., GRIFFIN, J., LØVHOLT, F., GLIMSDAL, S., HARBITZ, C., THIO, H. K., LORITO, S., BASILI, R., SELVA, J., GEIST, E. & BAPTISTA, M. A. A global probabilistic tsunami hazard assessment from earthquake sources	219
