### Contents

**YOUNG, T. P. & TAYLOR, W. E. G.** Preface  
YOUNG, T. P. Phanerozoic ironstones: an introduction and review  

**Geochemical and Mineralogical Framework**  
VELDE, B. Phyllosilicate formation in berthierine peloids and iron oolites  
HARDER, H. Mineral genesis in ironstones: a model based upon laboratory experiments and petrographic observations  
SPEARS, D. A. Aspects of iron incorporation into sediments with special reference to the Yorkshire Ironstones  

**Stratigraphic Patterns**  
VAN HOUTEN, F. B. & ARTHUR, M. A. Temporal patterns among Phanerozoic oolitic ironstones and oceanic anoxia  
YOUNG, T. P. Eustatically controlled ooidal ironstone deposition: facies relationships of the Ordovician open-shelf ironstones of Western Europe  
DREESEN, R. Oolitic ironstones as event-stratigraphical marker beds within the Upper Devonian of the Ardenno-Rhenish Massif  
TEYSSEN, T. A depositional model for the Liassic Minette ironstones (Luxemburg and France), in comparison with other Phanerozoic oolitic ironstones  
BHATTACHARYYA, D. B. Concentrated and lean oolites: examples from the Nubia Formation at Aswan, Egypt, and significance of the oolitic types in ironstone genesis  
BAYER, U. Stratigraphic and environmental patterns of ironstone deposits  

**Fabrics**  
HUGHES, C. R. The application of analytical transmission electron microscopy to the study of oolitic ironstones: a preliminary study  
GEHRING, A. U. The formation of goethitic ooids in condensed Jurassic deposits in northern Switzerland  
KEARSLEY, A. T. Iron-rich ooids, their mineralogy and microfabric: clues to their origin and evolution  
CHAUVEL, J.-J. & GUERRAK, S. Ooolitization processes in Palaeozoic ironstones of France, Algeria and Libya  
SIEHL, A. & THEIN, J. Minette-type ironstones  

**Case Studies**  
GUERRAK, S. Time and space distribution of Palaeozoic oolitic ironstones in the Tindouf Basin, Algerian Sahara  
TRYTHALL, R. J. B. The Mid-Ordovician oolitic ironstones of North Wales: a field guide  
MYERS, K. J. The origin of the Lower Jurassic Cleveland Ironstone Formation of Northeast England: evidence from portable gamma-ray spectrometry  
GARZANTI, E., HAAS, R. & JADOUL, F. Ironstones in the Mesozoic passive margin sequence of the Tethys Himalaya (Zanskar, Northern India): sedimentology and metamorphism
