THE GEOLOGICAL SOCIETY

The Society was founded in 1807 as the Geological Society of London and is the oldest geological society in the world. It received its Royal Charter in 1825 for the purpose of 'investigating the mineral structure of the Earth'. The Society is Britain's national learned society for geology with a Fellowship exceeding 6000. It has countrywide coverage and approximately one quarter of its membership resides overseas. The Society is responsible for promoting all aspects of the geological sciences and will also embrace professional matters on the completion of the reunification with the Institution of Geologists. The Society has its own publishing house to produce its international journals, books and maps, and is the European distributor for materials published by the American Association of Petroleum Geologists.

Fellowship is open to those holding a recognized honours degree in geology or cognate subject and who have at least two years relevant postgraduate experience, or have not less than six years relevant experience in the practice of Geology may apply for validation and be able to use the designatory letters C. Geol (Chartered Geologist).

Further information about the Society is available from the Membership Manager, Geological Society, Burlington House, London, W1V 0JU, UK.

Contents

MORTON, A. C., HASZELDINE, R. S., GILES, M. R. & BROWN, S. Introduction	1
BOWEN, J. M. Exploration of the Brent Province	3
RICHARDS, P. C. An introduction to the Brent Group: a literature review	15
YIELDING, G., BADLEY, M. E. & ROBERTS, A. M. The structural evolution of the Brent Province	27
MITCHENER, B. C., LAWRENCE, D. A., PARTINGTON, M. A., BOWMAN, M. B. J. & GLUYAS, J. Brent Group: sequence stratigraphy and regional implications.	45
CANNON, S. J. C., GILES, M. R., WHITAKER, M. F., PLEASE, P. M. & MARTIN, S. V. A regional reassessment of the Brent Group, UK Sector, North Sea	81
HELLAND-HANSEN, W., ASHTON, M., LØMO, L. & STEEL, R. Advance and retreat of the Brent delta: recent contributions to the depositional model	109
SCOTT, E. S. The palaeoenvironments and dynamics of the Rannoch–Etive nearshore and coastal successions, Brent Group, northern North Sea	129
ALEXANDER, J. A discussion of alluvial sandstone body characteristics related to variations in marine influence, Middle Jurassic of the Cleveland Basin, UK, and the implications for analogous Brent Group strata in the North Sea Basin	149
WHITAKER, M. F., GILES, M. R. & CANNON, S. J. C. Palynological review of the Brent Group, UK Sector, North Sea	169
WILLIAMS, G. Palynology as a palaeoenvironmental indicator in the Brent Group, northern North Sea	203
MEARNS, E. W. Samarium–neodymium isotopic constraints on the provenance of the Brent Group	213
MORTON, A. C. Provenance of Brent Group sandstones: heavy mineral constraints	227
STATTEGGER, K. & MORTON, A. C. Statistical analysis of garnet compositions and lithostratigraphic correlation: Brent Group sandstones of the Oseberg Field, northern North Sea	245
BJØRLYKKE, K., NEDKVITNE, T., RAMM, M. & SAIGAL, G. C. Diagenetic processes in the Brent Group	263
GILES, M. R., STEVENSON, S., MARTIN, S. V., CANNON, S. J. C., HAMILTON, P. J., MARSHALL, J. D. & SAMWAYS, G. M. The reservoir properties and diagenesis of the Brent Group: a regional perspective	289
GLASMANN, J. R. The fate of feldspars in Brent Group reservoirs, North Sea: a regional synthesis of diagenesis in shallow, intermediate and deep burial environments	329
HARRIS, N. B. Burial diagenesis of Brent sandstones: a study of Statfjord, Hutton and Lyell fields	351
HAMILTON, P. J., GILES, M. R. & AINSWORTH, P. K-Ar dating of illites in Brent Group reservoirs: a regional perspective	377
HASZELDINE, R. S., BRINT, J. F., FALICK, A. E., HAMILTON, P. J. & BROWN, S. Open and restricted hydrologies in Brent Group diagenesis: North Sea	401
HOGG, A. J. C., SELLIER, E. & JOURDAN, A. J. Cathodoluminescence of quartz cements in Brent Group sandstones, Alwyn South, UK North Sea	421
LARTER, S. & HORSTAD, I. Migration of petroleum into Brent Group reservoirs: some observations from the Gullfaks Field, Tampen Spur area, North Sea	441
KANTOROWICZ, J. D., EIGNER, M. R. P., LIVERA, S. E., VAN SCHIJNDEL-GOESTER, F. S. & HAMILTON, P. J. Integration of petroleum engineering studies of producing Brent Group fields to predict reservoir properties in the Pelican Field, North Sea	453
MOSS, B. The petrophysical characteristics of the Brent sandstones	471
