Foreword

NORTH, C. P. & PROSSER, D. J. Characterization of fluvial and aeolian reservoirs: problems and approaches

### Fluvial Reservoirs

LEEDEER, M. R. Tectonic controls upon drainage basin development, river channel migration and alluvial architecture: implications for hydrocarbon reservoir development and characterization

KRAUS, M. J. & BOWN, T. M. Palaeosols and sandbody prediction in alluvial sequences

SALTER, T. Fluvial scour and incision: models for their influence on the development of realistic reservoir geometries

MAIZELS, J. K. Quantitative regime modelling of fluvial depositional sequences: application to Holocene stratigraphy of humid-glacial braid-plain (Icelandic sandurs)

CUEVAS GOZALO, M. C. & MARTINIUS, A. W. Outcrop data-base for the geological characterization of fluvial reservoirs: an example from distal fluvial fan deposits in the Loranca Basin, Spain

DAVIES, D. K., WILLIAMS, B. P. J. & VESSELL, R. K. Dimensions and quality of reservoirs originating in low and high sinuosity channel systems, Lower Cretaceous Travis Peak Formation, East Texas, USA

ALEXANDER, J. & GAWTHORPE, R. L. The complex nature of a Jurassic multistorey, alluvial sandstone body, Whitby, North Yorkshire

JONES, J. A. & HARTLEY, A. J. Reservoir characteristics of a braid-plain depositional system: the Upper Carboniferous Pennant Sandstone of South Wales

KELLY, S. B. Cyclical discharge variation recorded in alluvial sediments: an example from the Devonian of southwest Ireland

### Aeolian Reservoirs

FRYBERGER, S. G. A review of aeolian bounding surfaces, with examples from the Permian Minnelusa Formation, USA

HERRIES, R. D. Contrasting styles of fluvial–aeolian interaction at a downwind erg margin: Jurassic Kayenta–Navajo transition, northeastern Arizona, USA

TREWIN, N. H. Mixed aeolian sandsheet and fluvial deposits in the Tumblagooda Sandstone, Western Australia

COWAN, G. Identification and significance of aeolian deposits within the dominantly fluvial Sherwood Sandstone Group of the East Irish Sea Basin, UK

MEADOWS, N. S. & BEACH, A. Structural and climatic controls on facies distribution in a mixed fluvial and aeolian reservoir: the Triassic Sherwood Sandstone in the Irish Sea

ELLIS, D. The Rough Gas Field: distribution of Permian aeolian and non-aeolian reservoir facies and their impact on field development
CONTENTS

GEORGE, G. T. & BERRY, J. K. A new lithostratigraphy and depositional model for the Upper Rotliegend of the UK sector of the southern North Sea 291

Structure

LEWIS, H. & COUPLES, G. D. Production evidence for geological heterogeneities in the Anschutz Ranch East Field, western USA 321

EDWARDS, H. E., BECKER, A. D. & HOWELL, J. A. Compartamentalization of an aeolian sandstone by structural heterogeneities: Permo-Triassic Hopeman Sandstone, Moray Firth, Scotland 339

Methods

LAKE, L. W. & MALIK, M. A. Modelling fluid flow through geologically realistic media 367

PROSSER, D. J. & MASKALL, R. Permeability variation within aeolian sandstones: a case study using core cut sub-parallel to slipface bedding, The Auk Field, Central North Sea, UK 377

REY, D., TURNER, P. & YALIZ, A. Palaeomagnetic study and magnetostratigraphy of the Triassic Skagerrak Formation, Crawford Field, UK North Sea 399

GAWTHORPE, R. L., COLLIER, R. E. LI., ALEXANDER, J., BRIDGE, J. S. & LEEDER, M. R. Ground penetrating radar: application to sandbody geometry and heterogeneity studies 421

CORBETT, P. W. M. & JENSEN, J. L. Quantification of variability in laminated sediments: a role for the probe permeameter in improved reservoir characterization 433

Index 443
